

She's Got a Hole in Her Heart

There's so many days
And so many ways
Life can slam you
What happens in youth
Is more hurtful than it seems
We all just go on
Big fish in little pond-zi schemes
We drag all the baggage
And just tie it on to our dreams

She's got a hole in her heart
And it leaks like a sieve
Her tank is always on E
No matter how much you give
You're gonna have to patch that hole
If you're ever gonna touch her soul
She's got a hole in her heart
And that's where she lives

Even in school
There was many a fool
Who tried to hold her
But boys of that age
Can't handle a girl so blue

You can't understand
The kind of a man who'd abuse her
The thief that instilled the belief
That men just want to use her
