

# You Can't Outrun the Rain

You never know what's just up ahead  
So count your blessings while you may  
Cause baby, it's all gonna change  
Ain't no way through this world without pain  
You can't outrun the rain

So keep your friends and loved ones close to you  
And keep your enemies at bay  
Cause baby, that's really all you got  
Ain't no way through this world without pain  
You can't outrun the rain

Oh, I have tried, good Lord  
Just running around the world  
Or shut up in my room  
Drinking wine cause it's afternoon

Fortunes come and fortunes go  
People lose their mind or their faith  
So, baby, join me in a last refrain  
Ain't no way through this world without pain  
You can't outrun the rain
